Dear Dr Umaly,

I hope you are fine. It is quite a while since we have seen you and a pity you could not participate in our General Conference in Durban which went very well. I hope your own Conference went well also.

To-day, I would need your help in identifying an Asian specialist (speaking English) in the implementation and/or organization of new ICTs in traditional universities (administration, or teaching and learning or libraries etc..).

What happens is that we are organizing in Denmark, from 3 to 5 May 2001, together with the International Association of University Presidents (IAUP) and the Association of European Universities (CRE), a Round Table on "Sharing Knowledge and Experience in Implementing ICTs in Universities". Each organization has to send 6 experts having a collaborative experience in these matters, eg. having shared experiences with other universities or colleagues.

It would be great if you could provide me -as soon as possible as I have to give names before the end of next week- with one or two names of well known people working in this area in your region.

Thank you very much in advance for your cooperation.

Dear Claudine,

Thank you for your emailed letter of 10/11. I do apologize for the slight delay in the reply as I was on mission when your letter arrived.

From Thailand and our University, perhaps Assoc.Prof.Dr.Prapavadee Suebsonthi is the best person as she is the one in-charged of our IT program and also the Borderless Education Program. I have tried to contact her and ask her availability and interest, but unfortunately I did not succeed. You can contact her directly in this address:
