Dear Ken / Gretchen.

Good news!! the Princess is interested to come to preside over the SSP/99 opening ceremony. We are assigned by the Rector to consult with you about the topic of the Keynote Speech. As it is understood that the speech should be somehow related to the course, ^{content} you are requested to provide to us your advice on what topic & its out line.

For your info.. the Princess has special interest in Remote Sensing. (Mannu is away now.)

Hope to hear from you soon. Your advice will be very much appreciated.

PS. Does email work now?
I sent 1 mail this morning.

Hugs. Pin

Green-Teal would be nice.

Re : Local Resource Persons for the Design Projects, ISU-SSP 1999

Dear Dr. Kamal Kishore,

Suranaree University of Technology (SUT) in collaboration with the International Space University (ISU) , France, is organizing a summer session program (ISU-SSP 1999) at Suranaree University, Korat, Thailand during June 26th - Aug. 4th, 1999.

There are nine academic departments as follows : Space System Architecture & Mission Design, Space Business and Management, Space Engineering, Space Life Sciences, Space Policy and Law, Space Resources, Robotics & Manufacturing, Satellite Applications, Space Physical Science and Space & Society

The Academic program includes the core lecture series, theme and specialized lecture series and the design projects. In the design projects, students will work together to produce a complete conceptual design of an international space project. As for the SSP 99, the two design projects are 1) Strategies for Human Exploration Away from Earth and 2) Disaster Management in Southeast Asia

I am now preparing the name list of resource persons from various educational institutes in Thailand. I will highly appreciate your assistance in providing us the list of experts and lecturers in your organization.

Thank you very much in advance for your kind attention and assistance.

Yours sincerely,

Mantana Thammachoti
