RE: EVALUATION

Dear Mr. Sackokham,

Greetings from SUT.

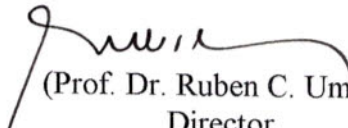

I do apologise for the delay in my reply as I was on mission in England and Paris for almost the whole month of May. I reported to SUT only the 3rd of June.

I am most grateful for the documents which you sent but I am afraid, I cannot be of much use at the moment as I do not know yet the details of the project. As far as I can see the inputs from the questionnaires are very good and would be very useful in deed in the evaluation of the project. However, in the absence of the background paper of the project specially its objectives and methodologies, it is not easy for me to give comments.

I hope some future arrangements would allow me to be of more use. I wish the project great success.

With best regards.

Yours sincerely

(Prof. Dr. Ruben C. Umaly)
