## The secretariat for ALIIS is located within IDP

*IDP is Australia's international education organisation. It draws on Australia's education resources to assist in developing overseas education institutions and education systems, particularly through human resource development; to foster international education partnerships and to provide information and counselling about Australian education opportunities. These activities are supported by an international office network.*

Australian Library and Information International Services

### Who is ALIIS?

*ALIIS is a cooperative venture combining the expertise and experience of:*

**IDP (the International Development Program of Australian Universities and Colleges Ltd)**

**ALIA (Australian Library and Information Association)**

**National Library of Australia, state and government department libraries**

**libraries in the education sector**

**senior library information professionals**

**schools of librarianship and information science at Australian education institutions**

### International Services

*ALIIS brings together consultants to deliver advisory and project management services in:*

- library management and administration
- library automation, microcomputer application, technology upgrades
- collection development, acquisition and cataloguing systems
- conservation and preservation
- reference and information services
- budget development and management
- circulation and networking systems
- coordination of library and institutional development
- staff education and training

### Australia's Successes

*Australian library and information science professionals have made a sustained and valuable contribution to the development of libraries and their personnel in Asia and the Pacific region.*

*Many countries in the Asia-Pacific region have drawn upon Australian expertise to advise upon library development, computer systems, preservation and conservation, library buildings, education and training for library staff, and other services.*

*Australia hosts library staff from the region to undertake Australian education and training courses and to make fact finding visits to Australia. These include:*

- short and long-term study visits
- postgraduate fellowships at universities
- attendance at seminars, conferences and training courses
