Remarks:

หมายเหตุ

We would appreciate it very highly if you could write a short report on arrangements made by IUT regarding this student and what went wrong or what happened.

We have to communicate to Gaeleph.

Thanks.

Dear Dr. Umrsky

I have closely communicated with Prof Goff. Please see the attach e-mail responses. Tue Mar 13

Dear Prof. Goff,

I am so sorry for the out come of Jenis's situation. However, I can not object her father's decision. She have already left Thailand when I knew her story.

Jenis would work with Dr. Kranarong on the research work in tapioca flour and starch at Kasetsart University. It will be the same work that Christine did last term. So we have made contact with Dr.Kranarong to have his students pick her up at the airport and take her to the apartment which is the same room as Christine stayed and also some of the officer in the office stay located in front of the University. This kind of arrangement was done with Christine before and it was smooth until Christine left Thailand.

Unfortunately Jenis arrived during our long week end, when I knew about her situation in Monday morning I phoned Dr.Kannarong office to get the information immediatly.

I learnt that Jenis flight arrived 1 hour earlier that the schedule. So Dr. Kannarong students missed her and had asked the airport to make announcement but they did not get Jenis. Jenis went to a hotel and phoned her father to let him know where she was staying. Her father phoned Dr.Kannarong office and found someone their. The students went to pick her up at the hotel and took her to the apartment located in front of the university and was the same room which Christine stayed before.

At night a man knocked Jenis's door and asked for some money. She scared and gave him some money. She called the police but did not tell them her apartment's name. I asked Dr.Kannarong staff who also lives in the same apartment, she told me that this have never happened before and also the apartment have the security door which always locked itself automatically from inside every time some body get in.

I believed that she phoned her dad for what happened to her. The next morning the students went to take care her but she had made her decision to return to Canada. She left Bangkok Monday at 08.00 hours.

This is all what I knew from a person in Dr.Kannarong laboratory. I am so sorry for what happened to her and could not be in the time that I could help or talk to her. I suggest that you talk to Christine to find out what her feel about her stay in Thailand for her last work term to get the picture of the apartment and the reception we arrange. If their is any thing I should know I would like to hear and consider it for my future improvement.

Finally I would like to apologize for what ever had happened and made her trip a failure.

This is Dr.Kannarong's e-mail, please contact him for more details if you would like to: Sirothk@mozart.inet.co.th

Sincerely,

Tee

Dear Prof. Goff,

I would like to thank you for your concern and response. Please talk to Jenis and also Christine and forward the information back to me. Dr.Kannarong also told me that Jenis's father phoned him and talked to him in order to ask Jenis to return home which Jenis's father had made an arrangement with a tourist agency to send the ticket for Jenis already. I thought this forced Jenis to return to Canada.

I checked my old e-mail and found out that Jenis informed me about her new arrival time which is one hour earlier and my assistant also informed Dr.Kannarong the new schedule. I really sorry that this misunderstanding about the arrival schedule happened.

However, Dr.Kannarong still welcome another students from Guelph any time. If you have another student and happy to have one here again please let me know.

Sincerely,

Tee

Subject: URGENT - HELP NEEDED FOR GUELPH STUDENT

Hi, Tee. I need your help very quickly. I received a phone call from Janis Hazlewood's father this afternoon. She is our University of Guelph Food Science student who is to do a co-op semester in Bangkok now. She arrived in Bangkok on Friday, but apparently was not met at the airport and has so far been unable to make contact with anyone who was expecting her. I am not sure where she is staying in Bangkok, but she can be reached at 011 66 2 938 1487 ext. 1026. She is apparently quite upset and frightened, and her father is very unhappy about this situation. Please, can you contact her as soon as possible and try to make some arrangement to get her introduced to the right people in Bangkok immediately.

I have copied this message also to Suwayd and Ruben in the hopes that the first person to read it can act on it. I have also sent the same message by fax.

Please also respond back to me immediately with news of her arrangements so that I can reassure her parents that she is alright.

I am very sorry that this situation has occurred, and I hope we can get it corrected as soon as possible.

Thanks. Doug Goff.

After Dir,
Dr. Tee has already acted on
this matter.

The girl's father, finally, insisted
that she go back to Canada.

Subject: Re: URGENT - HELP NEEDED FOR GUELPH STUDENT

I have been informed by Janis Hazlewood's father that she has decided not to stay in Bangkok but to come back to Canada, and has made arrangements for a flight early Monday morning. I am very sorry that this is the outcome, and I will be trying to find out from her what went wrong after she gets back home. Could I ask you also to try to find out what went wrong, and report back to me. This is a very unfortunate situation, and I hope that we can learn from this and ensure such a thing doesn't happen again.

Doug Goff.

RE: NOTE OF THANKS

I appreciate very highly and please accept my sincerest gratitude for your kind note of congratulation and greetings for the award of Chevalier dans l'Ordre des Palmes Academiques given by the French Government.

I am pleased to inform you that I was able to defend the proposal of the School of Biology for the establishment of an M.Sc. and Ph.D. Program in Environmental Biology at SUT. The major fields will be in Ecology, Ecogenetics, Ecophysiology, Environmental Toxicology (including Pesticide Toxicology), Environmental Molecular and Cell Biology and Biodiversity. In this connection, I would like to explore the possibility of linking with your University in this program. I shall appreciate highly receiving literature on the above related fields. Kindly advise me as to how we should proceed with this possible linkage.

Once again, thank you for your kind attention and consideration. Looking forward to more collaboration between our two universities.

Yours sincerely,

(Prof. Dr. Ruben C. Umaly)

Dear Ruben:

When Professor Otten returned to Guelph he told me about the presentation of your Chevalier award on February 11. What a splendid honour! All of us at the University of Guelph extend to you our congratulations and warmest wishes on the receipt of this honour. We are delighted and we send you all our good wishes.

Sincerely,

Mordechai Rozanski

RE: CHEG

This is to acknowledge with appreciation and gratitude receipt of the flyers on the Canadian Higher Education Group. I will share the information with the Board of AUAP.

Regarding the interest of your President on the Vietnam project on agrifood industry and agribusiness, perhaps the private sectors which are linked with CHEG may be interested in the project. Please let me know how University of Guelph can participate in the Vietnam venture.

When I was at your University, I was able to buy from the bookstore a monograph on Course Notes in Quantitative Genetics. I wonder if course notes on under sections of Genetics also exist. If they do, kindly provide me with a list of those available together with their prices. I find them most useful as references.

Best regards to you and to your staff.

Yours sincerely,

(Prof. Dr. Ruben C. Umaly)

Dr. Umaly and (Pin): Greetings, hope the conference is going well.

PLEASE FORWARD THE FOLLOWING MESSAGE TO STALIN:

- see below, request from J. Shute for status on co-op student
- ARA (Kim Cheah) called this morning requesting a summary of anticipated deliverables as at June 1997. I will go through the budget lines to see what categories have been completed. If you have any input on this, please send me a fax today or at the latest Monday.
(as you know I will be away on business from Feb 18 to March 5)

I understand you have been in touch with J. Knight via e-mail and that you did not receive the package of materials mailed by Ryerson International. I know we sent it, however we used the mail system as agreed, rather than courier. We are sorry that the package did not arrive and will try to do what we can to re-assemble the papers and other materials. Could you provide a list of documents that you need to be sent. One paper I recall was on Internationalization which would need to be re-ordered through AUCC.

Best regards to all
