Dear Prof. Dr. Ruben Umaly

Thanks for your e-mail of June 14, 1996. I will make myself available for the two week period of October 5 to 20th for my visit to Thailand. This will allow you about one week to finalize preparations for my visit after you return from Canada. That timing is great for me and could adjust the visit by one week in either direction if I heard from you soon enough.

Regarding the tie in of the industrial seminars with the Operation of TECHNOPOLIS, again I think this is a great idea and look forward to discussions with the companies already in the business park. On your visit to TUNS in September we can discuss the steps that TUNS is taking to establish closer ties with our local industry and work together from that base to see what lessons we can jointly take from our experience.

TUNS is very interested in the Vietnam activities and as you know have been working to include them with potential tasks on the Mekong River Basin. Again the details of our discussions can be discussed here in Canada.

Look forward to your early confirmation of my travel dates.

Robert Eagle
