To: Dr. Ruben Umaly

Hi, Ruben,

I am glad to see that things are going well on the two seminars that we have underway at this point. There are some questions however that I need to have answers to and some information that I will pass on to you.

1) The times seem to be fixed for the water resources seminar and Dr. Hart will continue to work through this program with you. Dr. Hart and I will be talking to AIB on Feb 20/96 and will be seeking funding support for the seminar. This will include covering some of your costs not covered by the CIDA project. We will let you know the outcome.

2) What time is best for Dr. Rhodes to come to TUN. We hope that we will not only give the lecture that is planned but also visit industry either with Ann Marie Cosler (except and/or me. He is planning to arrive in Thailand on July 21 and must leave on Aug 21 to be back in Canada by August 1. Please confirm.

3) The plans for developing further seminars seems to be going well in Thailand at some point. It would appear that I should continue to work with Dr. Rhodes and Dr. Hart. This would enable us to use their expertise when visiting local industry to discuss their needs. As a result, I would suggest that my visit should be from July 22 (or include water resources field trip) to July 31 or August 1. The other alternative is for me to come earlier but this may be difficult given my time frame and the timing of the meeting in Canada. Please advise what you think is best.

4) Dr. Hart and I will be visiting the AIB on Feb 22 and will continue our discussions with them about possible work on the Greater Mekong Subregional Projects. We will also be in China's Yunnan Province to meet with potential partners in late April. Please let us know any contacts you feel we should make. We will keep you informed of our results.

Look forward to hearing from you soon and seeing you in April.

Regards
Robert Eagle

Dear Prof. Dr. Umlay:

Attached please find a copy of an e-mail I sent to you. Did you receive it by e-mail? Is e-mail a convenient way to communicate with you or is fax and mail better.

Please let us know.

Yours very truly,

for 
Robert Eagle
